Summary:

Pioneer Pet is a manufacturer of cat litter, scratching posts, pet drinking fountains and other pet related products. Pioneer Pet currently has two warehouse locations in Cedarburg, WI with over 150,000 square feet dedicated to manufacturing and inventory storage. They work with some of the largest retailers in the world to sell their pet products.

Monoxivent provided cyclone dust collector equipment for Pioneer Pet's production floor. The cyclone collector is Model 70SN70-PL-SP. Cyclone collectors are perfect for industrial dust removal from the workplace. Cyclone collectors are offered up to 18,000-CFM. They are suited for heavy dust removal.
