AFRC
Lakehurst, NJ

Monoxivent Sales Rep:

Effective Controls East
Larry Frantz

Details:

9448-L-TMTR Hose Reels

Effective Controls East, an authorized Monoxivent representative, was awarded the opportunity to provide motorized retractable hose reels, exhaust fans, and all necessary controls as specified for the new Army Reserve Center - Equipment Concentration Site Maintenance Facility - Lakehurst (NJ).

The project consisted of (14) motorized retractable hose reels (9448-L-TMTR), each with 44' x 8" exhaust hose, (14) Backward Inclined Industrial Exhaust Fans (MNX-BC-SW-135), along with P-4 pendulum switches and CBS single point control panels. In addition (6) model 15320, 6" diameter telescopic fume extraction arms with mounting brackets, were provided for weld fume removal in a weld shop maintenance and repair area.
