Battle Creek Air National Guard Facility Uses Exhaust Removal System

Application Spotlight Location:

Battle Creek Air National Guard

Monoxivent Sales Rep:

Marshall & Wells
Grand Rapids, MI

Monoxivent provided **XL-Series Hose Reels** to capture **diesel exhaust fumes** from **military vehicles** at Battle Creek Air National Guard. The reels featured 50' of exhausting hose in 12" and 14" diameters.

The drums were 36" diameter by 7' wide. The reels were chain driven and explosion proof. A stainless steel tapered cone adapter with spring clamp and dual handles also were used.
