*Since 1952*

**QUALITY, SERVICE, INNOVATION**

Crawford Company, founded by Harvey Crawford in 1952, has grown from a small shop to a thriving corporation that looks to carry its momentum into the years ahead.

Crawford specializes in heating, ventilation, air conditioning, mechanical piping, plumbing, laser cutting, specialty welded fabrication, brewing equipment and custom architectural products.

Crawford products and services are found within commercial, industrial and residential markets. Crawford is guided, as it has been for over 60 years, by our original values: a commitment to product quality, customer service, innovation, business integrity and a high regard for individual contributions. We strive to uphold these values in every aspect of our company.

### RESIDENTIAL HVAC

Crawford Company's foundation was built serving the Quad-City area customers in the residential heating and cooling market. Crawford, a member of the Better Heating and Cooling Bureau, has been proud to work for the Quad Cities for over 60 years.

Crawford is the area's premier heating and cooling contractor. Crawford is proud to have only the best technicians and installers. This coupled with Crawford's premier line, Bryant, makes Crawford a great option. Crawford is a Factory Authorized dealer for Bryant.

### COMMERCIAL HVAC

Large scale projects are carried from design to completion with Crawford's team of estimators, fabricators, field crews and installers. The projects are typically plan/spec or design build within commercial and industrial markets.

Estimators begin the HVAC process by gaining jobs for the company. These individuals plan and build to carry these projects through completion. The estimators join forces with shop and field employees, giving the company a total team effort.

### SERVICE (HVAC, PLUMBING, HYDRONICS)

Maintaining the investment in your comfort is the privilege of our well trained and qualified service department. Our technicians provide analysis and repair 24 hours a day in residential, commercial and industrial HVAC and Plumbing markets. Crawford also offers maintenance programs to keep your equipment performing at maximum efficiency and comfort.

### MECHANICAL PIPING

Crawford offers full mechanical services to commercial, industrial and governmental entities. Our services include, but are not limited to: boilers, chillers, process piping as well as project estimation, management, scheduling and on time delivery.

### PLUMBING

Our plumbing team repairs and replaces faucets, sink/disposals, toilets, remodels tubs/showers, repairs and installs water/sewer/gas lines, installs and tests backflow valves, tanks and tankless water heaters, sump/sewage pumps and backwater valves. Contact Crawford Plumbing for new construction, remodeling, maintenance contracts and more!

MONOXIVENT**

**CUSTOM ARCHITECTURAL**

Crawford's Custom Architectural Products complement interior décor and exterior façade designs in a number of unique settings.

The company began specialty work in 1986. Since then, Crawford has played integral roles in commercial and residential projects. Much of the work is of copper and stainless steel design. Crawford employs a team of experienced specialty designers that work with customers from concept through completion.

UnderDuct and Corrosion Composites offer FRP (Fiberglass Reinforced Plastic) duct and products for new construction, industrial and commercial applications.

# MANUFACTURING

**FABRICATION**

Crawford works in many industries and environments. Many of these projects are stainless steel fabrications for a number of material handling applications, control panels, work stands and many other support products for the manufacturing process. Other regularly performed services include prototype fabrication, parts production and sub-assemblies for manufactured products.

**WELDING**

Crawford's Specialty Welded Fabrication Division has played an integral role in the corporate structure since 1985. The majority of this work has been implemented by Crawford's team of specialty welders.

**LASER CUTTING**

Crawford provides customers with precision cuts for mild steel, stainless steel, tool steel, aluminum and plastics. Crawford offers three versatile machines to meet a variety of demands including a Balliu 3500-watt laser.

**BREWING SYSTEMS**

Crawford's equipment provides micro-brewers with functional and aesthetically pleasing equipment MADE IN THE USA. Our systems tie directly into our company's hallmarks: Quality, Service, and Innovation. Our engineers, designers and highly skilled fabricators partner to form an effective and efficient process that is second to none.

Monoxivent products provide air cleaning solutions that protect workplace environments from noxious fumes and particulate.
